#### Reviews

*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Domestic Violence is about power and control over another person. It is not a problem with anger. Rarely do you see an abuser act violently with friends, coworkers or a boss. It is a Jeckyl and Hyde personality that confuses others who learn of a person's violence with their partners. Abusers can act charming, loving and attentive when they want to. Drinking, drugs, genetics, the victim's behavior or stress does not cause domestic violence. It is learned behavior. It is learned in the home by observation and reinforcement before the age of 10. Domestic Violence happens in all races, religions and socio-economic groups. A relationship starts in the honeymoon phase. Over time, tension starts building. Usually when the abuser feels that the victim is sufficiently hooked into the relationship, either through marriage, moving in together or getting pregnant, the abuse starts. The honeymoon phase is what hooks the victim back into the relationship and keeps the cycle moving. Over time the cycle reduces to just tension/abuse and the episodes of violence get more frequent and severe. Victims often leave their abusers an average of five to seven times before they are able to leave permanently. The victim is in greater danger when they decide to leave. Only the victim can decide what is best for them and their children. It is important to recognize that they are the experts in their relationship, not an outsider. Never tell a victim Just leave him/her. The victim must develop a safety plan. They will know when it will be the best time to leave. SummaryDomestic violence (also domestic abuse, spousal...
